

AUXILIA

CON SISTEMA DI RIEMPIMENTO IMMEDIATO WITH IMMEDIATE FILLING SYSTEM

Vasca composta da sedile, porta e paratia mobile che, incernierata al sedile, la divide in due parti.

Bathtub consisting of a seat, a door and a bulkhead that is hinged to the seat dividing it into two parts.

La prima parte è destinata al riempimento, mentre l'altra rimane vuota per permettervi di entrare.

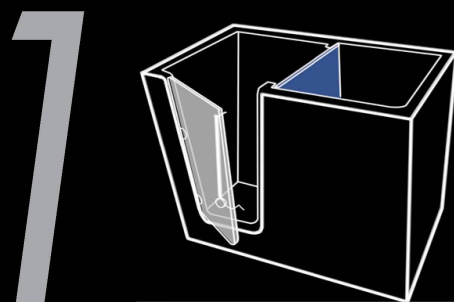

The first part has to be filled, while the other has to be left empty for you to go inside.

Dopo essere entrati in vasca è sufficiente chiudere la porta ed abbassare la paratia verso il sedile; l'acqua defluirà rapidamente riempiendo la vasca in un istante.

Once inside the bathtub you have just to close the door and put down the bulkhead towards the seat; the water will flow quickly filling the tub in one moment.

La vasca è subito piena: non dovete aspettare 15 minuti prendendo freddo! Potete godervi da subito il calore di un bel bagno rilassante!

The tub is immediately full: you do not have to wait 15 minutes and get cold! You can immediately enjoy the warmth of a nice relaxing bath!

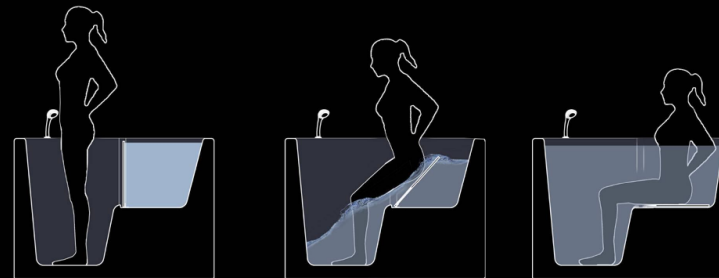

Il solo gesto di dover oltrepassare il bordo-vasca o doversi rialzare da una posizione semisdraiata, crea non poche difficoltà dal punto di vista della muscolatura e delle articolazioni. Per agevolarvi Busco ha ideato la nuova linea Auxilia che comprende una serie di prodotti con porte a tenuta stagna che danno un facile accesso e tutti i comfort di una vasca idromassaggio da sogno.

E' una soluzione innovativa e benefica non solo per chi ha qualche anno in più o problemi motori, ma per tutti coloro che amano le comodità e la sicurezza, senza rinunciare ad un design innovativo.

Just having to cross the board of the tub or to get up from a lying position, involves many difficulties related to muscles and joints. So Busco designed the new Auxilia line which includes a series of products with watertight doors that give an easy access and all the comforts of the hydrobathtubs you have always dreamt.

It is an innovative and beneficial solution not only for elderly people or people with movement difficulties, but also for those who love comfort and safety, without renounce to an innovative design.

NUOVA CHIUSURA INTERNA - NEW INTERNAL CLOSING

Porta con innovativa apertura verso l'interno per evitare fuoriuscite d'acqua. Grazie al suo movimento rototraslante non ingombra all'interno della vasca.

This innovative way to open the door toward the inside avoids any water spills and leave the entrance free.
